

**Assistant, Associate or Full Professor (Open Rank)
Regular or Term Faculty
Division of Endodontics**

About the Job

The University of Minnesota School of Dentistry seeks candidates for a full-time tenure, tenure-track or clinical-track faculty position to join the Division of Endodontics.

This position will primarily provide clinical supervision and didactic instruction for Endodontic residents, in addition to instruction of predoctoral students in the clinic or preclinic as assigned by the Division Director. The faculty member will serve on School of Dentistry committees, participate in School governance, and will collaborate with a diverse group of faculty, staff and students, to provide a positive environment and continue the momentum of growth and excellence in the Division of Endodontics.

The preferred candidate will be an experienced clinician with an academic background of teaching and scholarly work. Candidates must be committed to teaching and developing our residents with dedication and commitment to providing full scope quality care and service to patients.

Qualifications

Required Qualifications

- DDS/DMD degree or recognized international equivalent
- Current Minnesota Dental License or can obtain one prior to start date (a faculty license may be sponsored by the School of Dentistry if needed)
- Completion of a CODA accredited advanced education program in Endodontics
- Eligible for board certification by the American Board of Endodontics
- Proof of authorization to work in the United States by start of position.
- For tenured or tenure-track applicants, research experience should correlate with desired rank
- Proven dedication to fostering a diverse, equitable, and inclusive environment
- Excellent communication skills and ability to collaborate well with others

Preferred Qualifications

- Experience in teaching, advising or instructing of higher education students
- Demonstrated history of quality clinical and didactic teaching with pre-doctoral students and/or Endodontic residents or fellows
- Experience (Full-time desirable) providing patient care and supervision in an academic setting
- Experience in Endodontic Practice
- Experience in mentoring students or residents
- For tenured and tenure-track applicants, proven history of a research program with a track record of publications and external funding is desirable
